GAZETTE — DESIGN RECORD

Design Record: A Public Key Directory

How Aletheia plans to publish the keys that sign its records, so anyone can check them.

This record describes a planned public directory of the keys that sign Aletheia's published records.

In its first form it would publish the signing keys of the AletheiaChain Mainnet Beta validators and of the Gazette, so anyone can check a published record independently. Keys for travel documents would be added only if such documents were ever lawfully issued.
